Municipal Campaigns End In Personal Bitter Attacks

closed tonight in a number of heated meetings. The bitterness which has marked the campaign was carried through to the very end, tonight's meetings being characterized by the denunciatory speeches of the candidates and the heated personalities indulged in.

Koreans Seeking Sympathy

NEW HAVEN, Nov. 1.—Prof. G. T. Ladd, a former adviser to Prince Ito, gave out a statement today in which he declared that the assassination of Ito was planned in order to provide a cause for European intervention in the affairs of Korea. He states that the Korean plotters think that so much prominence will be given by the world to the death of a man so widely known as Prince Ito that attention will be drawn to the internal conditions of their kingdom, with the hoped-for result of some anti-Japanese action on the part of the Powers.

TOKIO, Nov. 1.—Today an Imperial edict was issued, calling for a suspension of work throughout the Empire during the time of the funeral ceremonies of Prince Ito. Today the body of the assassinated statesman lay in state in his former home, the remains being viewed by sorrowing thousands.

GAYNOR IN THE LIMELIGHT.

NEW YORK, Nov. 1.—One hundred and twenty-five thousand dollars were waged here today on the results of the mayoralty election, in which Hearst is an independent candidate, Gaynor the Tammany candidate, and Bannard the fusionite. At meetings tonight each of the candidates spoke confidently of the results.

The contest has been one of the most hotly fought for years, a desperate attempt being made to down the Tammany ticket. Today indictments were returned against fifty persons charged with fraud in connection with their registration.

In the betting, Gaynor, the Tammany mayoralty candidate, is a two-to-one favorite.

TO MAINTAIN LOBBY OF 500.

NEW ORLEANS, Nov. 1.—The Inland Waterways Convention, in session here, today voted to appropriate for the expense of maintaining a lobby of 500 persons at Washington to work for an appropriation for the carrying on of improvement work along the Mississippi river. The hope of the delegates is that Congress may appropriate sufficient to cover the work of deepening the river for the passage of ocean steamships.

FACTIONAL FEELING RUNS HIGH.

JACKSON, Ky., Nov. 1.—County elections will be held throughout this state Tuesday. Trouble is expected in Breathitt county, where factional feeling is running high. So ardent are the partisans and so imminent is a clash that Gov. Wilson has ordered out a portion of the State militia to preserve peace in the county and guard the ballot boxes.

PEARY INVITED TO LECTURE.

WASHINGTON, Nov. 1.—Commander Peary has been invited to lecture before the National Geographical Society on Wednesday. This is taken to indicate that the society has endorsed the claims of the commander regarding his discovery of the North Pole. Peary arrived here today and submitted his further proof to the scientists.

JAPAN'S COMMERCIAL DELEGATES CONFER.

WASHINGTON, Nov. 1.—The Shibusawa commercial delegates held a conference today with Secretary of State Knox. The conference was a private one and no report has been made public.

WESTERN PACIFIC DRIVES LAST SPIKE.

SACRAMENTO, Nov. 1.—The last spike in the Western-Pacific was driven today at Feather River Bridge. There were no ceremonies to mark the completion of this great work.

HOUSE.

(Continued from Page 1)
Clerk Woodward proceeded with the reading.

Upon its conclusion, on the motion of Sheldon, the message was referred to the Printing Committee to be translated.

Representative Kaleopa introduced a bill providing for the payment of the necessary expenses of the special session. Under suspension of the rules the bill was passed on first reading.

The first indication of the all-important question of land policy and homesteads came in a joint resolution introduced by Representative Castro.

The resolution provides for the organization of a commission on advances to homesteaders and reads as follows:

"Whereas, there are a number of Homesteaders in this Territory struggling under the burden of financial difficulties to the extent of rendering them incapable of utilizing and developing the resources of their holdings; and

"Whereas, the full development of the resources of this Territory can best be attained by the occupancy and utilization of the unappropriated public lands by homesteaders; and

"Whereas, it behooves the Territorial government to consider methods whereby the present and prospective homesteaders may be protected, assisted and encouraged; therefore,

"Be it Resolved by the Legislature of the Territory of Hawaii:

"That the Governor shall, as soon as practicable after the approval of this Resolution, appoint a commission of three members, who shall be experienced and competent persons, to be known as the Commission on Advances to Homesteaders, which commission shall study and thoroughly investigate and examine into the matter of establishing an office to conduct the business of advancing money to the bona fide homesteaders of the Territory on security of mortgage of the homesteaded land and improvements thereon at a low rate of interest; and said commission shall consider ways and means whereby said office may be managed and the business thereof conducted; and shall likewise consider the most practicable and feasible way of raising money by means of proper legislation for the purpose of meeting the full requirements of the office.

"The Commission may, in their discretion, employ legal counsel to assist them in their work. Said commissioners shall each receive two hundred dollars for his service, together with other reasonable allowance for the expenses incurred in the performance of the duties herein prescribed; and the Commission shall make report to the Governor not later than January 1, 1911, with their recommendations appertaining thereto, together with such bill or bills as may be deemed necessary for the effectuation of such recommendations.

"And the Governor is hereby requested to publish for the public interest the report of the Commission and their proposals.

"The Elevator to Success Is Not Running ---Take the Stairs"

IF YOU have been waiting for a rich uncle to get jerked hence and leave you a big fortune, give it up. He may live twenty years more.

If you thought that the way to make money was to save for several years and then buy a big city block, give it up. City blocks are hard to get, and you will lose the worth of two or three of them while you are waiting and saving.

If You Want to Save Money and Make Money Take the Common Sense Method

HERE ARE THE RULES:—

- (1) Buy a place you know is good and has promise of getting better all the time.
- (2) Take something easy that you know you can handle. Don't attempt big things until you have successfully handled smaller ones.
- (3) Buy close to home where you can see what you have and keep your eye on it.
- (4) Buy for future advance rather than present worth. Get something that in all reason ought to be better next year.
- (5) Take on all you can possibly handle. If you have enough to pay down on one lot, take three instead and pay part on each. The all-cash method is too slow for good money-making.
- (6) Act at once. Don't let grass grow under your feet. Delays never pay dividends.
- (7) Undeveloped property always pays bigger than developed property.

If you make an investment in the KAIMUKI NEW OCEAN VIEW DISTRICT, your savings will have a splendid opportunity to grow with the city.

If you have any doubt about the city growing, think about the new buildings to be erected soon, including the Federal building and a \$150,000 Y. M. C. A. building, the millions of dollars to be spent by the U. S. Government for military and naval improvements, the increasing millions of our agricultural and other products, the assured advantages to be derived from the Panama Canal that will soon be completed, the way our delightful and healthful climate is being recognized as the best, and a few other things that makes it easy for us to understand why Honolulu has the most promising future that ever confronted an American city.

The size of our lots in the Kaimuki New Ocean View District are 11,250 sq. ft. each, and our prices are \$300.00 for corner lots and \$400.00 for inside lots, with liberal installment terms.
